Bids, both Technical and Financial Parts, shall be submitted online on the e-procurement system specified in BDS 6.1. Detailed guidelines for viewing bids and submission of online bids are given on the website. The e-tender for this Project is published on this website. Any prospective bidder can logon to this website and view the e-tender and can view the details of Legacy Waste Remediation Services for which bids are invited. A prospective bidder can submit its bid online; however, the bidder is required to have enrolment/registration on the website. The bidder should register on the website using the relevant option available. The bidder can then login the website through the secured login by entering the user id/ password chosen during registration. After getting the bid schedules, the Bidder should go through them carefully and submit the specified documents, along with the bid, otherwise the bid will be rejected.

14.2

All the documents are required to be signed digitally by the bidder. After electronic online bid submission, the system generates a unique bid identification number which is time stamped as per server time. This shall be treated as acknowledgement of bid submission. Physical, e-mail, Telex, Cable, or Facsimile bids will be rejected as non-responsive.

15. Deadline for Submission of Bids

15.1 Bids must be uploaded online no later than the date and time **specified in the BDS**.

15.2 The Authority may, at its discretion, extend the deadline for the submission of Bids by amending the bidding document in accordance with RELEVANT ITB in which case all rights and obligations of the Authority and Bidders previously subject to the deadline shall thereafter be subject to the deadline as extended.

16. Late Bids

16.1 The electronic bidding system would not allow any late submission of bids after due date & time as per server time.

17. Withdrawal, Substitution and Modification of Bids

17.1 Bidders may modify their bids by using the appropriate option for bid modification on e-procurement portal before the deadline for submission of bids. For this the bidder need not make any additional payment towards the cost of the bidding document. For bid modification and consequential re-submission, the bidder is not required to withdraw his bid submitted earlier. The last modified bid submitted by the bidder within the bid submission time shall be considered as the Bid. For this purpose, modification/withdrawal by other means will not be accepted. In the online system of bid submission, the modification and consequential re-submission of bids is allowed any number of times. A bidder may withdraw his bid by using the appropriate option for bid withdrawal, before the deadline for submission of bids, however, if the bid is withdrawn, re-submission of the bid is allowed.
